

# Home Education Around the World: Struggles, Successes and Strategies

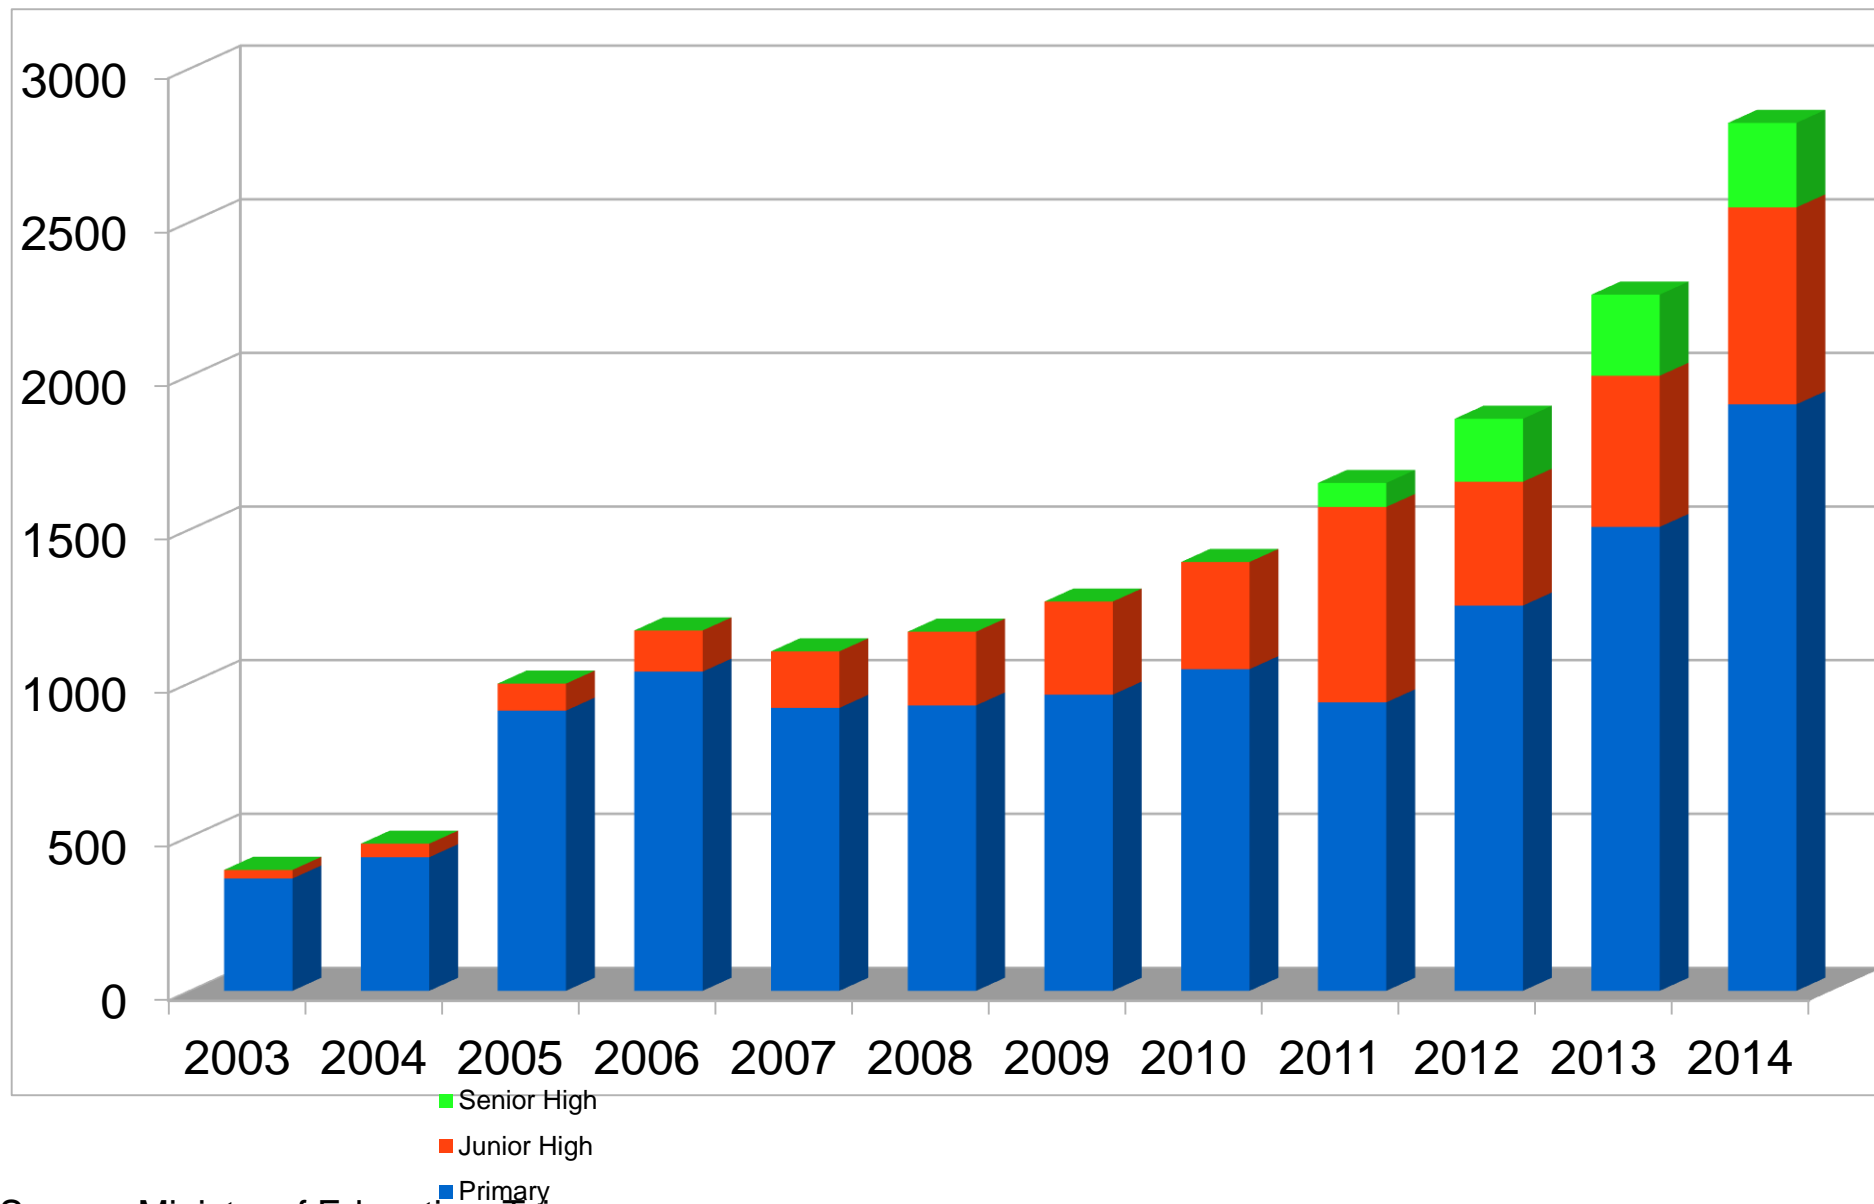

Tim Chen  
Taiwan Homeschool Advocates

# National regulation was introduced in 2011

Source: Ministry of Education, Taiwan

# Accomplished most milestones

- Equal access to higher education – government-issued diploma since 2012
- 
- Equal opportunity to home education - USD1,000 per semester tuition subsidy since 2014
- 
- Legal protection – dedicated law since 2014
- 
- ~~Compulsory home education in 2020~~

# How would you like your home education to be regulated?

- Leave us alone – no oversight, no resource
- 
- Compile fully with the national standard – why bother homeschool?
- 
- In Taiwan, the state recognizes the diverse home education processes and treats the outcomes different but equal to school education.
